

STAINLESS STEEL TEES

Penn Stainless Products supplies stainless structural tees in 304/304L and 316/316L. Stainless structural tees are primarily rolled or extruded up to 1" with thickness up to 1/2" See our catalog for full product details. Larger tee sections can be manufactured utilizing laser fusion technology. Laser fused technology also enables engineers and metal buyers to mix thickness or even material grades. Laser fused tees can also be supplied in Duplex 2205 and lean Duplex 2201. All tees can be cut to size. Stainless tees can be supplied with a polished finish. Contact a sales associate for details.

20-22 Ft. R/L
 Specs: QQS-ASTM-ASME-AMS
 In grades 304, 304L, 316, 316L
 Annealed and Pickled

Dimensions	A	B	C	Est Wt*	Production Technology
3/4 x 3/4 x 1/8	3/4	3/4	1/8	N/A	hot rolled – tapered
